

Anjali Agrahari

7392960821 | agraharikhushi04@gmail.com | linkedin.com/in/anjaliagrahari

Uttar Pradesh, India

Education

Vellore Institute of Technology

Bachelor of Technology in Information Technology
Vellore, Tamil Nadu

June 2024 – May 2028

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Computer Networks

Technical Skills

Programming Languages: C/C++, Java, Python, JavaScript, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Flask, Tailwind CSS, REST APIs, WebSocket

Developer Tools: Git, GitHub, VS Code, Figma, Adobe Suite, Postman, Linux/Unix

Cloud & Platforms: Firebase, Google Cloud, MongoDB

Core CS Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks, Machine Learning, API Design

Projects

MindFlow – SaaS Productivity Platform

Jan 2026

React.js, Tailwind CSS, Node.js, Firebase, JavaScript

- Engineered full-stack SaaS platform with AI productivity insights, task management, and calendar integration; improved focus-tracking efficiency by 40%
- Architected modular React.js component library with Tailwind CSS achieving 95+ Lighthouse score and sub-2s load times across all devices
- Integrated Firebase real-time database reducing data sync latency by 60% and supporting concurrent multi-user sessions
- Built analytics dashboard with interactive visualizations boosting user engagement by 35%

AI Adaptive Compressor – ML-Powered File Compression

Nov 2025

Python, Machine Learning, Flask, scikit-learn

- Developed ML-powered compression engine dynamically optimizing compression ratios based on file type; reduced storage by 47%
- Trained supervised learning model on 10,000+ samples achieving 91% accuracy in file classification and algorithm selection
- Built Flask REST API backend delivering 3x faster throughput than static compression with seamless file processing pipeline

DevCollab – Real-time Collaborative Code Editor

Sep 2025

React.js, Node.js, WebSocket, MongoDB, Express.js

- Built real-time collaborative platform supporting simultaneous multi-user editing with sub-100ms sync via WebSocket architecture
- Developed Node.js/Express REST API handling 500+ concurrent connections with optimized event-driven architecture
- Integrated syntax highlighting for 15+ languages with live cursor tracking; MongoDB version history enabling 30+ code snapshots per session

Experience

Open Source Contributor (Volunteer)

Dec 2025 – Present

GNU Radio & MetaBrainz Foundation, Remote

- Merged PR #7991 into gnradio/gnradio implementing Guided Tutorials navigation adopted by 10,000+ active users globally
- Engineered Qt GRC-compliant Help menu actions following existing patterns; reduced new-contributor onboarding friction by 40%
- Delivered 2 merged pull requests with 100% code review acceptance; 1 additional contribution under active review
- Collaborated with international maintainers using Git workflows, branch management, and structured code review standards

Design Head

Jan 2026 – Present

IEEE-SSIT VIT, Vellore, Tamil Nadu

- Spearheaded end-to-end visual design for 20+ technical events producing posters and digital assets reaching 1,000+ students
- Managed cross-functional design team optimizing delivery pipelines; reduced creative asset production time by 25%
- Elevated chapter social media engagement by 40% through brand-consistent campaigns using Figma and Adobe Suite

Core & Junior Core Member

Apr 2025 – Jan 2026

IEEE-SSIT VIT, Vellore, Tamil Nadu

- Designed 30+ social media creatives and event materials expanding IEEE-SSIT digital reach to 500+ students
- Contributed to planning and execution of 3 technical workshops and social-impact events under strict deadlines

Certifications

Goldman Sachs – Internal Audit Virtual Experience Program

Forage | 2025

Introduction to Generative AI Studio

Google Cloud | Oct 2025

Data Science and Analytics

HP LIFE | Jun 2025

Additional Information

Languages: English (Professional), Hindi (Native), Spanish (Beginner)

Interests: Open Source, Full-Stack Development, Machine Learning, Cloud Computing, Technical Writing
